

New Investment

We are pleased to announce our investment into a new development in the picturesque village of Freshford, close to Bath. The site is partially developed and the completed development will comprise 21 residential units being a mix of houses and apartments with potential to increase to 25 units subject to minor planning amendments.

We have partnered with a long established developer and together with private investors have invested total equity of £2,150,000.

The equity investment has been personally guaranteed by the developers and the total value of the scheme is estimated to be £12,200,000 within 18 months.

The financing, property, legal and tax aspects of the investment have all be handled in-house.

For details about our future investments, please contact any of the partners:
